

Stretching from the rolling hills of Hampshire to the iconic white cliffs of Sussex, the South Downs National Park is a living, working place. Generations of businesses, farmers, residents and visitors have all played their part to create, conserve and contribute to this thriving landscape of natural and historical assets.

Designed to bring together the best of the South Downs National Park, the new South Downs National Park Visitor Centre will be a place where visitors can learn about the park's history, culture and natural heritage. The centre will also be a place where visitors can enjoy the park's stunning views and landscapes.
